Maaz Imran

Full-Stack Developer
+92 304 7074792 | hello@maazimran.dev | maazimran.dev | LinkedIn | github.com/SmokeNova

Experience

Full-Stack Developer Nov. 2023 – Present
Enigmatix *Bahawalpur, Pakistan*

- Build and maintain features of client and in-house web applications
- Work on an AI-powered search marketing platform that agencies use to audit websites, research keywords, track search rankings and monitor how brands appear in AI answers
- Take features from scoping to release through GitLab merge requests, code review and CI pipelines
- Use Claude Code and Codex daily to speed up research and refactoring, reviewing every change they make
- Worked on an office management system for attendance, leave requests, employee profiles and admin approvals

Software Engineering Intern Jun. 2023 – Oct. 2023
Enigmatix *Bahawalpur, Pakistan*

- Shipped UI fixes and small features on a product team
- Worked in a shared codebase as part of a team, with every change reviewed by teammates

Projects

Noom | *Next.js, NestJS, PostgreSQL, Drizzle, Gemini, Better Auth* noom.maazimran.dev

- Designed and built a screen recorder solo: people record their screen, a window or a tab with voice and system audio, then keep it private or share it by link
- Sent uploads straight from the browser to object storage via signed multipart URLs, with per-user quotas
- Generated transcripts, chapters, summaries and suggested titles with Gemini, linked to the player for seeking
- Added Better Auth sessions, owner view analytics and Sentry error reporting across the frontend and API

LiveDocs | *Next.js, Liveblocks, Yjs, Tiptap, PostgreSQL, Drizzle, Better Auth* livedocs.maazimran.dev

- Built a collaborative article editor with real-time co-editing and live cursors (Liveblocks, Yjs, Tiptap)
- Built email invites with viewer and editor roles, revocation, read-only public links and downloads
- Added an Insights panel for length, reading time and structure, plus in-app notifications for shares
- Enforced per-account limits on the server; image uploads via Cloudinary, transactional email via Resend

Technical Skills

Languages: TypeScript, JavaScript, SQL
Frontend: React, Next.js, Tailwind CSS, TanStack Query, shadcn/ui
Backend: Node.js, NestJS, Express, Better Auth, Zod
Data & Infrastructure: PostgreSQL (Neon), Drizzle ORM, Redis, Vercel, Sentry
Workflow: Git, GitLab (merge requests, CI/CD pipelines), GitHub Actions, Figma, Vitest
AI-Assisted Development: Claude Code, Codex

Education

Government Sadiq Egerton Graduate College Bahawalpur, Pakistan
Bachelor of Science in Computer Science *Nov. 2024 – Present*

Government Sadiq Egerton Graduate College Bahawalpur, Pakistan
Higher Secondary School Certificate (F.Sc. Pre-Engineering) *Nov. 2021 – Jun. 2023*
